SeriesLab

Whether you are an international scriptwriter, director or producer, you just need to be into the TV Series field. Nine projects work on the creation of the concept: from generating ideas and structuring the material, up to a final pitch in front of major key players during a TV industry event, **in 2023 TFL will assign a development grant of € 10,000 to one of them.**

SeriesLab Talents

This programme aims at **scouting and training the best emerging drama writers coming from all over the world**, to create a hub of international writers equipped with the necessary tools to perform in a professional writers' room, and to introduce them to the market. Guided by a high profiled script editor, they will experience the work in a real writers' room, building strong connections with other international writers.

ScriptLab 2019

What happens between thinking of a story and making it real?

TorinoFilmLab is the answer. Since 2008 it is the place to go if you have a story for the screen in mind.

TFL accompanies auteur and professionals in the realisation of their ideas: from developing a screenplay to standing side by side to film teams in facing the different aspects of production, from supporting it financially to providing visibility and networking opportunities. All of that until the film is ready to fly solo. During the last 15 years, over 170 stories developed with TFL reached the audience.
